

Our Philosophy and Mission

This restaurant is about the love of food.

These are the recipes of our youth...
invoking memories of happiness, special occasions
and of times shared around the family table.

Like most of you, so many of our memories
are punctuated with the remembrance of meals...
meals that were lovingly prepared by our mothers and fathers,
grandmothers and great aunts,
and special friends who became “adopted” family members.

We invite you to come in...meet our families...

hear our stories...and tell us yours.

Come in and share a meal with us...

let's raise a glass and toast to your special occasion...
and together, create a new memory.
